

Overview

This course is designed for clinicians working within general practice. The core subjects of Emergency Aid (Immediate Life Support) meet the requirements and outcomes of the Quality and Outcomes Framework (QOF). Additional modules may be added to this course including AED Awareness and/or Anaphylaxis Update. Emergency Aid (Basic Life Support) is also available for non clinical staff.

Suitability

This course is ideal for all staff working in general practice or the community care setting who need to be updated with the latest emergency procedures in accordance with the Resuscitation Council Guidelines (UK). This course will allow the individuals to meet the requirements of the Quality and Outcomes Framework (QOF), Continual Professional Development (CPD) and that of the regulatory bodies; GMC, NMC & HPC.
